

One Word, Different Voices

Listen · Notice · Respond

TODAY I CAN recognise one English word in different voices and respond in my own way.

The word is still HELLO.

Nia hears “hello” in a quick voice and a slow voice.
The voices change. The English word stays the same.

Pip listens carefully. “I know that word!” he says.

A familiar English word can sound different when different people say it.

FAST

Say HELLO this way.

SLOW

Say HELLO this way.

QUIET

Say HELLO this way.

LOUD

Say HELLO this way.
